

Harbor City PTA Hears Counselor Dr. Brumfield

Mrs. Louis Dingillian, area school counselor, presented an interesting and informal talk on the "Feelings of Children" to the April PTA meeting of the Harbor City Elementary School. She very aptly described the various feelings of the child and how closely they parallel those of the adult. In summing up, she stated that the feelings of children are shown through behavior because of the inability for words.

The meeting was opened with Pledge of Allegiance led by Girl Scout Troop 643.

The combined kindergarten classes, in Easter hats and bunny ears, which they had made, sang "Peter Cottontail."

Current business was discussed and after Mrs. Dingillian's talk, Mrs. James Alexander, president, adjourned the meeting.

Pre-meeting cake and coffee were served by the second grade mothers, who carried out the pink and white Easter theme.

Park Site Purchase Approved

Supervisor Kenneth Hahn announced today that the Board of Supervisors has taken the first step toward development of a large regional park for the southern portion of the county by authorizing the acquisition of 22 acres of property at the northwest corner of Normandie avenue and Artesia boulevard (174th street) through condemnation.

"Acquisition of the park property will make it possible to provide much better recreational facilities to the people of a large region, including Torrance, South Los Angeles, Gardena, the south bay area, Victoria Park, and adjacent communities," declared Hahn.

He pointed out that it will be easily accessible from either the Harbor freeway or Artesia boulevard and that it will provide a place for the schools in the area to hold activities. The proposed park is only a short distance from Gardena High School.

Total acreage of the proposed park is 26.45 acres.

Supervisor Hahn pointed out that formerly Dominguez channel flowed through the property

with the water being dispersed into a slough area. Permanent improvement of the channel on a new alignment south of Artesia boulevard made the land available for development as a recreational area.

The Dentist Says: ERNEST J. TARR, D.D.S.

Return to Dentist For Reline

"Should I buy one of the temporary relines materials sold in drug stores and reline my denture myself?" . . . asks Mrs. A. B. of Manhattan Beach.

After extraction of the natural teeth, it is normal for the gums to shrink. This shrinkage continues to some extent throughout life. Since your dentist made your plate to fit the contours of your gums at a given time, when tissue shrinkage occurs, your plate may start to loosen. When this happens, return to your dentist for re-adaptation of your plate as he thinks best.

Only your dentist has the skill and "know-how" to refit or rebase dental plates, should it become necessary. Don't attempt a homemade job with so-called relining materials. These materials harden after application and may seriously interfere with the carefully designed contours and delicate measurements which your dentist constructed in your dental plates to insure a good fit.

In my office I am equipped to reline any denture in two hours. This is a permanent relining with the same type plastic that you now have in your denture. Phone me for the exact fee.

Good Tooth Care for Proper Health

"What is the best way for me to take care of my teeth now that I have had them all fixed up?" . . . asks a young mother from Torrance.

Home care of the teeth has three objectives: (1) Reduce markedly the intake of all sweets such as candy, cake, cookies, etc.; (2) cleansing of the teeth; (3) massaging of the gums. The latter is more important than many people realize.

Beautiful and sound teeth are dependent upon firm and healthy gums; Your daily massage can help improve local blood circulation, thereby increasing resistance to gum disease such as gingivitis, pyorrhea, and trench mouth. Normal gums should be pale pink; if they are deep-red, bluish-red or bleeding, chances are that gums and teeth are not receiving a sufficient blood supply.

Only with correct brushing technique can you take care of both objectives at the same time. Since preservation of teeth is my main concern, I give full instructions to my patients on the proper toothbrushing technique, demonstrating on them with the proper type brush.

Phone for an appointment and remember we are open every evening until 7 p.m.
